Dollar Wheat

The price obtainable for wheat is too low. At any rate in western Canada a farmer cannot maintain his family by growing wheat to sell at 50 cents per bushel. Even when he delivers his wheat to the wheat board at 60 cents a bushel as an initial payment, with further payments to come if the board can sell the grain at a profit, it will not be so good as to grow wheat to tide the grower over until the war ends and world markets recover. Where fair crops cannot be counted on, the grower and his means over a large part of the prairie belt at present, it pays better to summerfallow land and collect the acre bonus than to sow to wheat.

If the initial payment were raised to a dollar a bushel, this it is claimed would make wheat-growing profitable when and where the yield was good. Unfortunately this subsidizing of wheat production would react to cut down the production of bacon, butter, cheese and other products that have happened when wheat-production promised a satisfactory return, and for reasons not at all obscure. But the production of wheat, and the foodstuffs is more vital at present than the growing of more wheat.

Dollar wheat would be a safe and sane policy if a limit were set, say 1,500 bushels, to the amount each farmer could deliver at that price. Paid a dollar per bushel at point of shipment, this would give the farmer the best income on which he could rely. And it would leave him the profit incentive to go on producing the products which he and other producers of foodstuffs are more vital at present than the growing of more wheat.

A Time For Closed Ranks

The eagerness of people in Britain that all possible aid be given to Russia is understandable, and in every way proper. More difficult, however, is to reconcile with any conception of wartime discipline or national security, is the clamor that this aid be given by Britain's army and navy, and the continent and establishing a western front.

This proposal has been condemned by the military authorities as a policy of desperation, if not of suicide. That should still the demands. It should also be apparent even to those not skilled in military matters that such a policy could play more directly into the Hitler hands. Britain has neither the millions of spare men nor the equipment necessary to send an expeditionary force of safe proportions to France or the Low Countries, nor probably even the boats to transport such a force.

Moreover, if a British front were established on the continent, supplies now going to Russia would have to be diverted thither, and the British front weakened, not strengthened, for its great need is munitions, while Britain would be exposed to the risk of overwhelming invasion should the continental force be either beaten or sidetracked by a holding army.

The Nazi high command would like nothing better, it is well known, than that Britain should thus gamble with its own safety, and cut down supplies to Russia, in a frontal attack on the pressure on its eastern ally. Next to that, Berlin will be cheered by the news that considerable sections of the British public are showing a disposition to take the conduct of the war out of the hands of the military and governing authorities. Goebbels can be trusted to distort the facts out of all proportion, to the stiffening of enemy morale.

Britain saved itself a year ago last September because its people rallied about Churchill. Impatience should not be allowed to split the national solidarity at this almost as critical a time.

The "Collision" And Canada

Mr. Knox, secretary of the United States navy, stated a hideous truism when he said "a collision is inevitable in the Orient if Japan pursues its policy of expansion. Japanese newspapers and public men have been saying substantially the same thing for many months; always with the added declaration that Japan will pursue its expansion policy regardless of consequences.

This is what the Japanese people have been taught to expect, and what they have been and are being made to prepare for. All the talk about arranging a peaceful settlement of Oriental differences has been based on the plain statement of the plain implication that the settlement must be made on lines laid down by Japan.

Neither the Konozy cabinet nor any other has suggested that Japan should or might abandon aggression, take its armies out of other countries, and accept an agreement recognizing the rights of other powers in and out of the Far East. There could be peace if China and Russia and the United States and Holland and France and the British

Empire accepted peace on Tokyo's terms. Otherwise peace was impossible—from the standpoint of the Japanese junkies.

Mr. Knox evidently feels it is time the people of the United States sensed the situation in the Pacific as being what the people of Japan have been dragged into regarding it. It is equally time that people in Canada woke up to the facts. While the war in Europe is a struggle for the survival of the fittest, it is a struggle for the survival of the fittest in the Pacific as well as the Atlantic, that it is closer to Hitler's eastern ally than the United States. It is a new invasion of this continent would have to be by way of Canada.

This is one reason why Canada needs a powerful home defense army, and why that army should be more serious than it is. If the "collision" comes, Canadian attention will shift very suddenly from the European front to matters nearer home.

Even laymen may detect one lesson to be learned from the fighting in Russia, and it was demonstrated also in the fighting from France to Greece. It is that the cannon is the answer to the tank. Nowhere has it been reported that the Fuehrer's panzer divisions met artillery on anything like even terms without being stopped and destroyed. One well-aimed shell from a field gun marks the finish of a tank and its crew.

The triple tragedy which occurred Saturday night in the Lacombe area is a terrible reminder that main highways are only in degree less perilous for pedestrians than are the roadways on the streets of a city; sometimes they are in fact more perilous. No person can now walk on a well travelled country road with safety after dark. But frequently there is no other place to go but the road. The time has come when foot-paths should be made at the sides of highways for the use of pedestrians and cyclists.

British air and sea forces in the Mediterranean report they have sunk at least one German submarine in the last two months. The score for Germany was 22 German submarines and nine others were damaged. The tonnage destroyed is given as 50,000 tons. The British small and moderate ships are being used to ferry supplies from Italy to the army in Libya. Italy was not lacking in large vessels when it entered the war less than a year and a half ago. These have either been destroyed or are kept in port because British "lake" is not safe.

Looking Backward

From The Bulletin Files

1891-50 Years Ago

The Edmonton football club returned Monday night from Calgary in a more or less victorious mood. The club had faced bearing evidence that the game had been a lively one. Our men were defeated by a score of 6 points to 10. The game will be played in Edmonton at an early date, the home team hope to reverse the situation.

1901-40 Years Ago

Maskee N.W.M.P. veterans celebrated the anniversary of the arrival of the force in southern Alberta, 27 years ago.

Lawrence Adamson leaves next week for South Africa.

1911-30 Years Ago

Shanghai Chinese newspapers announce that the minister of war, commanding the Chinese army, has ordered his own soldiers. Canton is said to have been rendered by the revolutionaries, after heavy fighting, and the Chinese powers be compelled for the cost of their own war.

Toronto: There are probably 100 Canadian in China. It is reported that the Imperial troops have been ordered to take the conduct of the war out of the hands of the military and governing authorities. Goebbels can be trusted to distort the facts out of all proportion, to the stiffening of enemy morale.

Britain saved itself a year ago last September because its people rallied about Churchill. Impatience should not be allowed to split the national solidarity at this almost as critical a time.

1921-20 Years Ago

London: The "Little Entente" composed of Yugoslavia, Czechoslovakia and Rumania has despatched a note to Hungary demanding that Emperor Charles be removed, that the Hungarian army be disbanded, and that the powers be compensated for the cost of their own war.

Montreal: Christmas toys, the first consignment of German goods since the opening of the war, have reached the port.

1931-10 Years Ago

Tokyo: With her military grip extended from Manchuria into Mongolia, Japan prepared to the extent about arranging a peaceful settlement of Oriental differences has been based on the plain statement of the plain implication that the settlement must be made on lines laid down by Japan.

Neither the Konozy cabinet nor any other has suggested that Japan should or might abandon aggression, take its armies out of other countries, and accept an agreement recognizing the rights of other powers in and out of the Far East. Oil Control Operates For Wear of The Entire Nation

Motor gasoline is most important of all phases of oil situation here
By E. F. LAMBERT

Canadians, now in the third year of war, are just beginning to feel the economic pinch that Britons overseas have had to endure long since.

The SOS signals of ailing oil tankers at last are being heeded in Canada. It may surprise Canadians to learn that other than the well-authenticated threat of oil shortage, which we are reading in less and less supply of motor gasoline.

It may surprise Canadians to learn that other than the well-authenticated threat of oil shortage, which we are reading in less and less supply of motor gasoline.

Viewed as an integral part of the whole economic picture of Canada, it can be readily understood that, apart from any military or priority requirements for fuel and its products, motor gasoline must be regarded more and more in the light of a commodity that is becoming increasingly scarce. Second place for 1940 is taken by the United States with an average of 7,800 miles per car. Canada's figure is 9,000 miles per car.

Churchill Government Assailed

Prime Minister Not Popular With Tory Party After Working With Laborites
By HAROLD L. WEIR

It is a dangerous business in peacetime to calculate too heavily upon the permanence of political parties.

It is infinitely more hazardous in wartime.

Insecurity of political position in time of war is increased by the fact that the uncertainty of the people always demands immediate and effective action.

Alberta District News In Brief

Hanna Lodge Has Officials At Meet

HANNA.—Lodge of Elks, No. 127, was honored recently by having two Grand Lodge officers present at their regular meeting, when a class of candidates for membership were initiated into the order. These were P. A. Miquelon of Edmonton, official representative of the order in Canada, and J. P. Ferguson of Trochu, grand leading knight. With an attendance of more than 60 officers of the Trochu lodge were introduced and conferred the degree of Elksdom on a large class of candidates, ceremonies throughout being marked with efficiency, decorum and dignity.

A banquet, served by the Ladies' Auxiliary of the Legion followed the ceremonies at which both Mr. Miquelon and Mr. Ferguson received the history of the Order of Elks and the part it was now playing as a national and patriotic order in Canada during war times. Short talks by visiting and local members were well received.

The Hanna lodge, recently organized by Mr. Miquelon has a large membership, and with plans for the future all laid out, seems destined to become the outstanding factor in war service and community work in the town and district.

POURCE COUPE—A novelty car race was held recently to raise funds for the purchase of cigarettes, taken, etc., for men serving in the army. Nearly \$50 was raised and a committee composed of Messrs. Bergeron, Slaney, Bidden and Tyrell have been placed in charge of making up and dispatching the parcels.

Trend of 1941 full furniture is to light and flexible forms.

Rocky Mountain House Sketches —By Will Danch

"The 'V' stands for 'Victory'. They're flying in that formation to help Ranger McAlpine recover from his injury!"

Injured Ranger Carried By Cart, Truck To Care

ROCKY MOUNTAIN HOUSE.—W. Sawyer, senior ranger at the Clearwater station, with a wagon took McAlpine to the Henry Stelwage ranch, 40 miles from town, where Dr. A. C. Greenaway and Constable R. A. McMullen met them with a truck, and brought McAlpine to the hospital.

The Board of Trade held its first meeting since June this week, when members of the party who went west from here over the proposed David Thompson Highway, to the Benf-Jasper road, gave an account of their second trip. The board went on record as "anxious" to see the work completed.

Minister Accepts Pulpit In North

DAWSON CRUIER.—Rev. C. E. Kline, United Church minister formerly at Montevideo, has accepted an invitation to take charge of the United Church at Grande Prairie early in November.

Miss Daphne Phillips left this week as the first volunteer for the Women's Auxiliary Air Force from the Peace River district. Miss Phillips has been employed at the B.C. government office for several years, and more recently in the Public Works department.

Gray Turgeon, M.P., for the Cariboo, was a visitor in the district last week. He left for Vancouver by plane after addressing meetings on behalf of Glen and the newly-elected M.C.A. in the B.C. elections.

Cpl. and Mrs. K. Windrem returned to Calgary this week after a brief holiday in the district.

W. H. Teskey, president, reported on a banquet in Red Deer, which he and the secretary, R. G. Williams, attended. Calgary and Edmonton visitors at the banquet expressed a desire to buy Rocky Mountain House, and plans were made for a banquet here, in which Calgary, Edmonton, Red Deer, Innisfail and Lacombe Board of Trade members will be invited.

The planning mill at the Atlas lumber company has shut down after a six months run, when 17,000,000 feet of planed lumber was finished. Much lumber was sold to military camp construction, and the remainder shipped to the States. The company still has over a million feet of rough lumber in the bush but had roads stopped truck hauling.

Anniversary Is Happy Event

MR. AND MRS. JACOB J. WUERTRICK

Wuerthrick Golden Wedding

Many Children, Grandchildren Attend

Notable Event For Chipman

Of the girls, Mrs. Frank Wilton, living at Tofield, has 11 children; Mrs. O. P. Strand of Chipman has two sons, both in the armed forces; Mrs. Ed A. Davies, Edmonton, two children; Mrs. Charles J. St. Albert, five children. Also living in Edmonton is Miss Rita Wuerthrick.

BORN IN SWITZERLAND
Jacob J. Wuerthrick was born in Thun, Switzerland on August 21, 1867. Mrs. Rosa Wuerthrick was born in St. Gallen, Switzerland, on March 1, 1872.

The couple were married in Norway, Carver County, Missouri. One year after their marriage, the Wuerthricks moved to Canada in 1892.

They settled first on a homestead in the Greenford district, now known as Star or Edna. There they resided for 10 years and in 1903 came to Chipman.

Mr. Wuerthrick bought out the homestead there which he operated for two years. Next he purchased a hardware store which he operated until 1915 when he sold the business and became a grain buyer with the Gilchrist Grain Co. He continued in this position for 10 years and then retired.

All but one of the 11 children of the happy couple were present for the celebration. One son, Harold T. of Vancouver was unable to make the journey.

It was truly a golden event celebrated in Chipman Sunday.

Music Group Has Meet; Plans Made

POURCE COUPE—Annual meeting of the Peace River Elks Music and Drama Festival, was held at the Hart hotel this week, when plans for the 1942 festival were discussed.

A favorable financial report was presented by the treasurer, A. J. Bergeron. Officers elected for the coming year were as follows: President, J. P. Bergeron; C. Ideal, Mrs. W. Shawyer; Rev. C. Kliney, Mrs. Winkler; and J. Chapman. The honorary president is yet to be elected.

J. P. K. English was elected president, with Mrs. R. Harper, vice-president; F. J. Bower, secretary.

Side Glances — By Galbraith

With The Men In Uniform

Three Edmonton district armoured regiments held a reception in honor of R.C.A.F. men, according to announcements made Tuesday. A R. Johnston of Battle was awarded wings at Kingston, Ont. Sgt. J. Johnston of Battle was awarded wings at Kingston, Ont. Sgt. J. Johnston of Battle was awarded wings at Kingston, Ont.

"I look to the day when we shall go forward hand in hand to build a better, kinder and a happier world for our children."

Her Majesty THE QUEEN

In these words, Queen Elizabeth expressed the hopes of millions of freedom-loving people.... In making this "a happier world for our children", life insurance plays a vitally important part.... It is life insurance which stands guard over our children—guaranteeing a mother's care, a good home, nourishing food, warm clothing, and an education to fit them for the future.... And, through the savings of four million policy owners, life insurance is the largest single subscriber to Canada's war loans in this stern struggle to make the world safer for our children.

It is good citizenship to own

Looking Over

JACK KELLY

EDMONTON'S 1941 baseball season has all tied up in a bundle and delivered to the city council last night in the form of a final report from the Edmonton Baseball Commission.

The senior club played 27 games in Renfrew Park and from these the city drew \$413.79 as its percentage for the use of the park. The Junior League of four clubs played 26 games in the park with the commission making no charge for the grounds in view of the heavy utility involved in completely equipping these fields and the exceptionally bad breaks the juniors got in weather.

The commission turned in an exceptionally fine job of handling Renfrew Park in its first year. As a result of the ready co-operation it extended to both senior and junior leagues, baseball is now on a firmer foundation here than it has been for many years.

Both leagues were able to finish the season with all bills paid on all playoffs completed, a good supply of uniforms and equipment on hand and a bit of money in the bank. Next spring will find seniors and juniors ready to start by the middle of May with the headache of financing lifted from them at last.

It is true that the city made no profit from its operation of Renfrew Park this summer, but on the other hand some eighty juniors were started in the game, 40 or 50 seniors had a chance to play and thousands of fans were provided with a lot of fine entertainment that helped to counteract the strain of these war days.

On the whole it looks as if the city got real value for its investment in Renfrew Park. In matters of sport facilities for the youngsters and adults, it seems to me that the general good received is of more importance than squandering out a few hundred dollars of profit that are only a drop in the city's coffers.

This Was Real Co-Operation

JAMES WALLACE BUTTS, JR., coach of Georgia Bulldogs, has a little anecdote he tells members of the university faculty whenever they start stamping his football activities. He reminds them that "Happy" Chandler started life as a high school football coach and was such a failure that they had to make him principal. He went on to become Governor of Kentucky.

Principal Chandler never failed to help his football coach.

"One day the football coach of Happy's school was upset because his best player was declared ineligible for flunking an examination," recounts Butts. "The coach took the matter up with Happy."

"Why that will be all right," Happy told the coach. "Just bring the boy to my office. I'll give him an oral examination and if he passes it, he will be all set."

"So the coach took the boy to Happy, and Happy asked him: 'What is the capital of Kentucky?'"

"The capital of my pretty good. He was positive the boy knew the capital of his own state, and he liked to die when the boy answered 'Vermont'."

"Any boy who doesn't know Frankfort is the capital is too dumb to play on my team," the coach told Happy.

"I thought the boy did pretty well," replied Principal Chandler.

"Vermont is only 15 miles from Frankfort."

"Fifteen from 100 is 15, and that's a pretty mark in any league."

Thisa and Thata Data

N EWEST and proudest daddy in Edmonton sport circles is Ken Henry.

One of the sparks plugs of the Canadian Amateur Club's hockey as

well as treasurer of the Junior Baseball League. It's a little idyllic.

Regina appears to be getting a bit fed up with having high-

pressure hockey moves move in on it and then move out whenever the whim strikes them.

Commenting on Herman Thoma's recent resignation from the helm of the Regina Rangers, Dave Dryburgh, sports editor of the Regina Leader-Post says:

"The champions are Regina will draw no sympathy from other centres

as you can include Uruguay, Mexico, Java and Saskatchewan in that list. Because our town is big enough to run its own hockey without calling on

outside help. The folly of leaning up with a man like Patrick, who has

nothing for New York's Madison Square Garden and doesn't give us

nothing for Regina, is too plainly evident to even Lester's booster. There's

no future to these deals.

So it could be that Regina is about to pay the shot for its mistakes."

Packers Battle Bears

Every Seat Sold For Pro

Football's Big Show Saturday

CHICAGO, Oct. 28.—(AP)—The Green Bay Packers

will learn next Sunday whether they've been on a wild goose chase since the National Football league season began.

The incomparable Don Hutson and his mate knocked over Detroit

and Cleveland before bowing to the undefeated Chicago Bears in Green Bay five weeks ago. Since then the

two teams have been duking it out in a series of games that have

over everything in sight, marking

the first time the Packers have

lost to their former opponent.

The meeting comes Sunday at Wrigley Field. All reserve tickets

have been sold. If the Bears win they will be virtually certain of

representing the west in the championship game.

★ ★ ★

Stevenson Takes Western Football Scoring Honors

WINNIPEG, Oct. 28.—(CP)—Art Stevenson, 25-year-old backfield

man of Winnipeg's 1-10 Bombers, won the Western interprovincial football

championship by leading his team to a 20-0 victory over the Regina

Knights in a game played at the University of Regina on Saturday.

The 190-pound backfielder, who has been playing for the

Hastings College, Nebraska, played five touchdowns, two conversions

and a field goal in the game. He was named MVP of the game.

Stevenson's middle-weight and his kicked five field goals, three conversions, and a field goal in the game.

MackKay Accepts Post As Engineer Out At Nanaimo

NANAIMO, B.C. Oct. 28.—(CP)—Dave MackKay of Edmonton, de-

termined last season for the Chicago Black Hawks of the National

Hockey League, has been asked to

take an engineers post with

Nanaimo-Duncan Utilities Limited,

but whether he will be able to play

with Nanaimo Clippers of the Pacific

Coast Intermediate Amateur League is uncertain.

Bill Phillips, manager of Clippers,

said Monday he was pleased to

have MackKay as coming to

Nanaimo, but he had not had any

correspondence with the former

Black Hawk star about his playing

for Clippers.

W. P. Macdonald, manager of the

utility company, said MackKay was

accepting the engineers post and

added "he will be associated with

the company in that connection

whether he plays hockey or

not."

Several British Columbia clubs

have had their strings out for

MackKay since the national

services board in Alberta refused

to permit him to return to the United

States on the grounds he was

eligible for war service in Canada.

Canadiens Promise Power

Irvin's Flying Frenchmen

May Again Thrill Montreal

ST. HYACINTHE, Que., Oct. 28.—(CP)—Those thousands

who jammed the "millionaires" section at the Forum

to sing "Vive les Canadiens" and shout encouragement to the

Flying Frenchmen back in the club's heyday a little over a

decade ago, may be able to take up that old chant again in

the next-to-the-distant future.

There'll be no Morenos, Jolats

or Legimes in this aggregation

which may bring back old mem-

ories, but in Coach Dick Irvin's new

edition of the Habitués there is

material for a club that will have

the speed and color of those former

Canadian teams.

High speed, Max V. Piquet, Pres-

ident, says the club will be

able to play in the 1942-43 season.

Exhibition Draws 2,500 At Winnipeg

WINNIPEG, Oct. 28.—(CP)—Red Dutton's New York

Americans, sporting Fred Thurber, leading point-maker up

from the American League, battled their National Hockey

League rivals, the New York Rangers to a 1-1 over-

time exhibition draw here Monday night before 2,500 fans.

Bill Cunningham's Column

Big Glamour Boy Of The Gridiron Just Won't Get For The Girls

It's all tickets... took whole family... most of the time... thing to me was chance for the kids to get a look at the Midshipmen... seems a regrettable decision especially in this year when we are practically at war... This is from the letter of a Boston gentleman sorely disappointed because the Navy football team visited Harvard Saturday, but the Midshipmen stayed at home. And it does seem a shame, but wait a minute.

It resolves itself into a matter of finances and Harvard football revenue hasn't been sufficient of late years to warrant freer spending. It appears that any intention of letting to pay the expenses on a New York Midshipman or West Point Cadets to go with the football game. It's a magnificent stage dressing but it runs into money. It costs to be pretty, \$20 a head to bring the Midshipmen to Boston from Annapolis, which means that 1,000 of them would cost \$20,000, and 1,000 of the best seats in the middle of the palace, which, otherwise, might be sold for big side seats.

The Future Generals come to \$15 a treatment, as of Boston, because the haul is just half as far. So how the understanding is being around that the Athletic Association of the two Academies took care of these matters, but that doesn't change it to be correct.

NAVY WORRIED ABOUT ARMY

THE Navy, incidentally, is beginning to see sparks. Reports on basic Army strength are disturbing their otherwise pleasant dreams. They aren't worrying about any particular up and down of the Soldiers' War, but they are worried about the Army's good Army will be by the Army-Navy.

It doesn't seem to make sense at least it wouldn't have a year ago—last Army night. The Navy against Army when they finally square off.

Navy Bill Bauck and Minnesota's Bruce Smith are unquestionably two of the great backs of the year, and if the Minnesota captain can get himself sufficiently recovered from injuries and strike his proper stride, he's a perfect center. They say the co-captain in his region and the Twin City debutant there. Parker on streets just to see him walk past.

His feet, flaxen blond, and a profile and dimples. He's almost a lightbulb, and he practices through the air with the greatest ease as he spreads that Bernini attitude. He glides in a copious and the "only" style that consistently fools

PROBABLY VISIT FOLKS ON NIGHT OF PHOON

BIG? It's a queer sort of hermit who's in it but not of it, except the football portion. That's his to him. For the rest, he's a fat-head on a queer kick. He just isn't interested, or rather it's that he's interested just in football and books.

For one thing, he's consistently panned by the bids of various fraternal groups for all the fact that he is, by all odds, the biggest prize on the campus. The Senior Prom of the most magnificent social event of the annual year. Men plan for weeks the co-eds make this glamorous event an entire career. But it will hold forth this year without the Minnesota football captain in white tie and tails.

He'll probably go home that night to see the folks.

That's where he goes, as a matter of fact, when all the university goes somewhere else. He lives in the town of Paris, about 60 miles away, and that's where you find him when he's not in his room somewhere around the gymnasium. As soon as the ball game is over, he's the side door and game, some body else can sit around Sunday night, and enjoy the administrative glances, or replay the great victory verbally upon the fraternity house.

STATE PLANNED OUT FOOTBALL STAR

THE guy who really soared in his little home having Sunday dinner with Mom and Dad. That seems to be all there is to it. Suppose he, some from metropolitan newspapers, have penetrated that fact that the still half a year's romance, but it's always no soap. He hasn't got a girl there either, at least not that anybody ever been able to locate.

It's apparently just the folks, and his own trouble bed. Once or twice, it's been funny. Last year, for instance, after his long solo run defeated Michigan, he went home as usual, and a terrific Sunday dinner with Mom and Dad. Bernie Bierman was wild, for his star was missing for practice. After running the backfield for two days without Smith, the coach took him directly to the Governor, and state snow-plows came to the Minnesota football department by planning to star out and returning him to the campus. It worked. His runs last Purdue.

Smith's a deadly triple-threat, a great punter, a long distance punter and a fast and powerful runner who can make a tackle loose and start fast at a new angle. His Conference average last year was 91 yards per game (in six games) or an average of 67 yards per single effort.

He was knocked out in the minor league with Pittsburgh Saturday night, but he can return to his former status and maintain it, there's your wish. All American left halves.

Indians Manager May Get New Job

CLEVELAND, Oct. 26.—(AP)—There's a chance that Manager Rigger Dickinson of Cleveland Indians will move from a bench to the dugout to a swivel chair in the Tribe's front office.

President Alva Bradley is considering the Indians' job as a successor to C. C. Blalock, who resigned as vice-president last month, but Dickinson is "only one possibility."

Coach George Drabun of Brooklyn Dodgers, Manager Frank

THE SMALLEST CIRCULATION: The newspaper with the smallest circulation, three copies a day for 300 years, was published in Vienna from 1610 to 1914, for the benefit of the Emperor alone. All three copies were daily laid on the desk of the Austrian Sovereign, its only subscriber.

"Old Bones" Comes Back To Pimlico Races In New Role

BALTIMORE, Oct. 26.—(AP)—"Old Bones" Exterminator, gallant campaigner that answered 100 calls to "Bones and Sables" and returned to the winner's circle 30 times, is coming back to Pimlico today.

The 26-year-old veteran, one of the most popular and courageous horses the American turf has known, is making the trip from Coach Master, Va. to lead the field in the post Thursday for Exterminator handicap, a race named for "Old Bones" himself.

Exterminator's appearance on the opening day of the Maryland Jockey Club's fall meeting will lend another bit of color and sentiment to a program featuring the 10th running of the \$10,000 winter-takeaway Pimlico special.

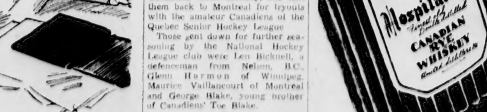

The Exterminator handicap, at two miles and 70 yards, was inaugurated last year and won by "Major Ernie" Stet. Put, 10-1, eight favorite for this year's running.

To likely years of racing, from 1917 through 1924, Exterminator won 50 of his 100 starts and earned \$252,900.

(Left) O'Doul of San Francisco and Bill Terry, manager of New York Giants, are the only two named as possible selections for the "Dodgers' managerial job in event Philadelphia's moved uptown.

There are 235,000 thick and brown in Florida.

CUTIES By E. Simms Campbell

"I was never more embarrassed in my life. I was just about to slap him, when he gave me this ring."

National League Figures Increase

NEW YORK, Oct. 28.—(AP)—Major league baseball attracted 10,250,208 fans during the 1941 season, but it was a year of mixed success, with Detroit's reversal chief cause for slight drop as compared with 1940.

Official figures assembled since the close of the campaign show the American League drew 5,270,519 and the National League 5,029,689.

This was a decrease of 31,823 from 1940, which means that in spite of war season, high costs of living and other obstacles, major league baseball almost held its own. Yet it was a chaotic year which saw some clubs making great gains and others taking increasing losses.

Detroit Tigers, who won the American League pennant and drew more than 1,000,000 admissions in 1940, saw their attendance fall off 600,000 and New York Yankees, who drew almost all spectators and regained the world championship, dropped 24,233 on their own attendance.

St. Louis Cardinals, who won the National League pennant, dropped 14,272 to post the 1,000,000 mark for the second time in three years. The Dodgers total of 1,212,772 was a record for a Brooklyn club.

The Cardinals' record for Brooklyn and the Cardinals caused the National League as a whole to gain 10,250,208 over last year.

The American League slipped into 1941 because of the Tigers' reversals.

THE FIGURES

AMERICAN LEAGUE	NATIONAL LEAGUE
New York Yankees	1,212,772
St. Louis Cardinals	1,212,772

Prominent Coast Amateur Athletic Official Passes

VANCOUVER, Oct. 26.—(CP)—Funeral services will be held Wednesday for A. E. "Red" Tennant, 52, who has held almost every office on the board of the Amateur Athletic Union of Canada. Mr. Tennant died in Winnipeg.

Born in Winnipeg, Mr. Tennant was active in the South African war as a major and joined the Canadian Pacific Railway here in 1900, retiring several months ago. In 1929, Mr. Tennant accompanied the British Columbia Olympic team to Paris.

Mr. Tennant did a great deal of organizational work for the A.A.U. of C. until his retirement from the organization about 1933, partly because of his health and partly because of his promotion to the position of local freight agent which required more of his time.

At the time of his retirement from the A.A.U. of C. he was a local president of the organization and president of the Canadian Olympic committee.

He was British Columbia representative on the Olympic committee and a past president of the British Columbia branch of the A.A.U. of C.

He leaves his widow, one son and one daughter, all of Vancouver.

More recently associated to temperatures of the United States are Arctic animals than animals of the tropics.

Ottawa Rooter Now Leader In E.R.F.U.

TORONTO, Oct. 26.—(CP)—George Fraser, veteran inside wing who has been placing himself in the line of Ottawa Rough Riders, retired today.

Fraser, who has been placing himself in the line of Ottawa Rough Riders, retired today. He was a member of the Ottawa Rough Riders for many years and was a leader in the E.R.F.U.

McCoys Health Service

The most curious fact about headache is that the pain which seems to be located in the head, may be due to a cause over two feet away, and in the muscular system. Another striking fact about headache is its amazing commonness. Within one year you probably suffered from headache than from any other ailment.

Many people ignore headache and allow them to wear away, or else they take a pain-debilitating remedy which suppresses the ache, but does not remove the cause. Every time you have a headache, you are missing a valuable opportunity. If you do not seek to discover the cause of the pain, with the removal of the cause the ache will disappear.

Probably the principal reason for the frequency of headache is the large number of causes capable of producing this symptom. We find it associated with a wide variety of diseases.

The only successful treatment of headache is that which removes the underlying cause. In itself, headache is not a disease and the treatment should not be directed toward relieving the headache without giving proper attention to the basic cause.

Different patients describe different types of headache, our patients may complain of a splitting headache in the center of the head, or a burning ache in the point of a bone.

Some patients describe a mild distress which comes on at certain times, headache indicates merely a disturbance in the nervous system and recurrent headache may be an important diagnostic sign, pointing to the existence of a serious ailment.

In every case, the best plan for the patient, together with many other things, is to secure an examination which will give the cause of the headache.

Unwise home treatment of headache only induces a temporary reprieve. Certainly, the person in good health need not be troubled by headache.

Your Baby And Mine

By MIELE MEYER ELBERD

Conflicting advice is the bane of the young mother's existence. She has not been around children long enough to develop any ideas of her own and she is confused and unhappy at any advice which conflicts with that of her pediatrician. Often she is so inexperienced that she does not recognize that all roads may lead to Rome and that a concerted time may suggest a different slightly different way the same thing she has heard of before.

Mr. S. V. says she is grateful to the advice of the pediatrician as it seems to answer so many of her bewilderments. "We mothers, with our first babies don't always know what to do when little things go wrong. They seem so enormous. Yet if we ask our friends we get so much advice that it is confusing that we don't know what to do."

"I have been giving the baby cod liver oil, orange and tomato juice and more of it seems to agree with him. I have changed the oil to a concerted time but he still hasn't offered him in place of the juice."

"I have my baby on a 4-hour schedule and he seems to be doing well. I don't have time for the bottle and by the time it is ready he is so tired that he can't finish his meal. Then he is awake again before the next meal. If I stop waking him up to finish his bottle he cries to be allowed to sleep."

"I am trying to get him to sleep through the 2nd feeding, but he can't seem to do it. I am giving him water. What shall I put in the water to settle his stomach?"

Without giving information about any of your present formula or its ingredients, you may be very helpful. It may be that the baby has slight gastric irritation when he comes to his next meal. If so, he would get a child in even water. For this, the baby should be given a small amount of orange juice or a small amount of the baby might spit it up.

You can get your doctor to advise you to use ascorbic acid tablets which are vitamin C tablets. They are sold in small packets and are very easy to use. Feed the baby only the 2 a.m. feedings. He will be very satisfied that he doesn't want to eat at night.

It is in this daytime feeding that some change needs to be made, but what this is depends entirely on what you are doing now. Won't you write me again about this particular? Meanwhile you may have the leaflet on "Breastfeeding for Mothers," "Sweet Mother's Formula" and "Feeding from Two to Nine Months." These leaflets are available from the publisher of this newspaper.

Mr. L. Thank you so much for your charming and competent advice. I am sure that you will be of the great joy of conducting this department.

Points For Parents

By EDITH THOMAS WALLACE

This 10-18

Not This

Mother: "I don't know Jean's parents but she must be a fine girl. I've never seen her before. Why not ask her to come to dinner tonight?"

A child who has been helped to develop reasonable standards of conduct may be in a better position to use discrimination in choosing her friends than her parents.

Home Service

Claver Hand-Made Gifts Your Friends Will Love

Dear Dorothy Dix: I have been married 14 months and I am bringing home to me, before marriage, I worked and time appeared to fly. The days never seemed long enough. But now I am a mother and I find time is passing so fast. I have nothing to do but sit and wait for the next day. I am taking care of my child and I am not getting any sleep. I am not getting any sleep. I am not getting any sleep.

My husband doesn't believe in me and he is not helping me. I am not getting any sleep. I am not getting any sleep. I am not getting any sleep.

Answer—Killing time is one of the most distressing occupations on earth, and it is especially hard on the girls who have no married business before they married. Many of them were always rushed and busy, with every minute of their days as carefully planned as their incomes.

But surely there are plenty of cures for the boredom rendered by having nothing to do if only you will give it some serious thought and not only pick out something that will be profitable

His Majesty Inspects Liverpool Naval Personnel . . . Canadian Destroyer Rescues Seamen

His Majesty is shown inspecting naval personnel during his recent visit to this great British shipping base. The King spent many hours with officers and men of the Royal navy and merchant navy, and also went aboard a minesweeper for an inspection tour. It is these men of Great Britain's navy who are keeping the sea lanes open against repeated Nazi attacks.

Photographed by Leading Stoker Raymond Woods, of Ottawa, from the deck of a Canadian destroyer which rescued them, these survivors of a torpedoed British merchantman resorted to the use of gloves and mitts to protect their chilled feet as they drifted for four-and-a-half days in the North Atlantic on an overturned lifeboat.

Dawn Comes Up Like Thunder

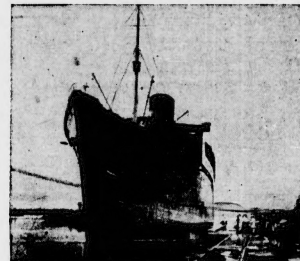

Dawn on the China Sea finds keen-eyed Malay seamen on the lookout for mines that might be lurking in the shipping lanes around Singapore. The Malaysians are swinging out a float from a British minesweeper manned and mastered by dependable natives.

"General Mud" Helps To Delay Nazi Tanks

While the capacity of mud to stop the German war machine is still a matter of conjecture, there can be no doubt that the black, sticky gooiness of the southern Russian terrain cannot help but have a delaying effect. This picture shows the Nazis' tanks with the wheels and treads enmeshed in huge splashes of mud.

"Queen" In War Role

The S.S. Queen Elizabeth, giant British Queen of the Seas, now in wartime role, comes into dock just after dawn in Singapore. She'll undergo general clean-up.

Smoke Screen Over Holland

Britain celebrated Queen Wilhelmina's 61st birthday by dropping a million packages of cigarettes such as the one above over the Netherlands. Wrapped in orange, color of the ruling house of Holland, packages carried this encouragement: "Holland Will Arise" and "Orange Will Win."

Re-United In Britain

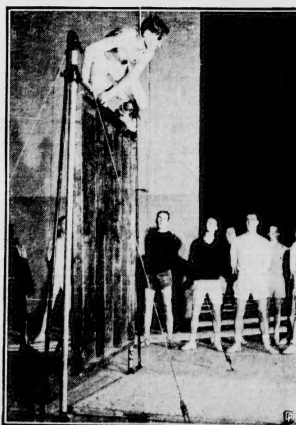

Madame Charles De Gaulle has only recently arrived in England and is shown here with her famous husband. General De Gaulle, commander of the Free French forces, at the door of the country home they have taken in Hertfordshire.

An Axis Plane Goes To Its Doom

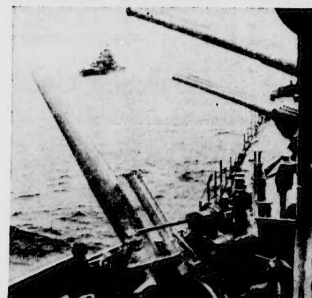

This sequence of photographs was made from one of the vessels of a large British convoy which was attacked by Italian aircraft in the Mediterranean. The top photo shows a torpedo-bomber heading for one of the escort vessels through a hail of anti-aircraft fire. The middle photo was made after a hit was scored and the plane downed. At the right is the aircraft carrier Ark Royal whose planes successfully drove off the other attackers. At bottom is a closeup of bits of wreckage floating amidst an oil slick as a wisp of black smoke still hovers about the scene. Eleven enemy bombers were downed by the protective anti-aircraft fire and planes from the Ark Royal.

Varsity Soldiers Keep Fit

Canadian universities have played an important part in the National War effort since the start of the conflict in training their students to become fit army men. Units of the Canadian Officers Training Corps have increased their activities and have been a rich source of officer timber for the Canadian services. Reserve Battalions have also been organized to give university students basic training. McGill University's contribution is typical. This photo shows members of the M.R.T.B. (McGill Reserve Training Battalion) during a P.T. session.

Keeping Guard On Sea Lanes

Here's an anti-aircraft gun crew on the alert beside its weapon aboard a U.S. warship "Somewhere in the North Atlantic." Note the other vessel in the background, also part of the escort guarding a convoy of U.S. troops to Iceland. U.S. warships are playing an active part in keeping the sea lanes between this continent and Iceland safe for cargo vessels bearing supplies for England. Significant is the fact that since the president's "shoot" order in September, no vessels have been lost in this area.

New York Stocks

NEW YORK, Oct. 28.—(AP)—Stocks generally set a quiet recovery tempo today in today's markets and finished up a point or more in most cases.
